

Pre-installation Requirements and Checklist

Prior to the installation of your new Shinpo smokeless grills, you need to acknowledge that you have **prepared the necessary elements for the grills, and that the infrastructure in your restaurant is ready for installation.**

Please read each item carefully, and verify that each step has been completed.

(We cannot assign our technician to come to your facility until each condition is met.)

Upon successful completion of each step, please **check the boxes** and **include your signature at the end** to acknowledge that your restaurant is ready for installation.

(Digital signatures are fine.)

Please note: the success of our installation and the success of your business is very important to us. In order for us to serve you, please verify that all of the necessary elements are in place and each box has been checked.

1. Tabletop Thickness

The thickness of all parts of the tabletop must be equal to 45mm.

2. Tabletop circular cutout diameter

Tabletop diameter: The diameter of the circular must be 370mm.

Note: If the tabletop thickness and circular cutout are not according to specification, the smokeless grill will not function properly.

Examples of incorrect tabletop cases due to size:

The table opening is too big.

Issue: air leaking

The back of the table is uneven.

Issue: Unable to install the controller.

3. Electrical Power

There is electrical power at the restaurant and the power outlet (220 – 240V) is available.

4. Exhaust Fan:

- Please provide the details of specs of exhaust fans.
- Please provide a close-up photo of exhaust fans.

5. Exhaust Ducts

The exhaust ducts must all be completed and in a state where all grills can be tested.

The site is tidy and clean

6. Installation Guide

Assembly and construction meet the requirements as shown in the installation guide.

7. Photos

You have to send photos of items 1 to 5 to be reviewed by our technicians.

IMPORTANT: Photos must be sent 10 business days before the visit of the Smokeless Grill Corp technician.
